

## **Valence Batteries and Battery Packs and the European Commission RoHS Directive**

Valence is pleased to advise that its cells, batteries and battery packs are exempt from the requirements of the Directive on the restriction of the use of certain hazardous substances (RoHS) in electrical and electronic equipment.

We have reviewed the Commission's guidance document on the batteries, waste batteries and accumulators directive published at <http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:32006L0066>, and find that Valence is in compliance with the restrictions listed in the Batteries Directive and the End-of-Life Directive found in Article 4, paragraphs 1 and 2.

Our findings have been confirmed by our battery consultant in Europe.

If you have any questions, please do not hesitate to contact us or your Valence sales representative.
